Overview

Exploring computers and science, your camper will have a great summer with RecTECH. In addition to computer classes, the NASA and STEM curriculums will be offered to spark interest in science and math. Camp days will also be filled with fun days of swimming, crafts, reading, dance, field trips and so much more for a wonderful summer of fun and academic enrichment. To promote summer reading, we have implemented D.E.A.R (Drop Everything and Read). All children will be engaged in reading, story-time, focus groups and activities to keep kids reading all summer.
